

Assignment for Web Developer Position

1. Create a website for an interior design startup.
2. You don't need to clone the site exactly; feel free to design your own UI/UX to showcase your creativity.
3. The website should include at least:
 1. 2-3 sections
 2. A NavBar
 3. A Footer
 4. A Contact Us form that accepts the customer's phone number and query, and sends us an email when the form is submitted.

Bonus Points:

1. Push your code to GitHub and share the public repository link.
2. Host your site and share the public URL (a public IP address will also work).

Submission Date: 08 June
